Art Unit: 3682

Claims 2 and 17 are objected to because of the following informalities: Claim 2 is grammatically awkward in line 1. The phrase "wherein the" appears twice. Claim 17 does not end with a period. Appropriate correction is required.

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-4, 9-16, 18, 19, and 23-25 are rejected under 35 U.S.C. 102(b) as being anticipated by Fröhlich et al.

Figure 18 of Fröhlich along with its disclosure anticipates all the structural elements recited in the above claims.

Claims 5-8, 17, and 20-22 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

As allowable subject matter has been indicated, applicant's reply must either comply with all formal requirements or specifically traverse each requirement not complied with. See 37 CFR 1.111(b) and MPEP § 707.07(a).
